

Public Perceptions of Warning and Informing Mechanisms in Merseyside

We are looking for residents of Merseyside aged 18+ to share their views of emergency preparedness and how they would like to be informed of potential risks in their local community. Participation will involve completing a questionnaire, which will take approximately 15 minutes. Findings will be fed back to Merseyside Resilience Forum to inform their approach to warning and informing the public.

Further information about this study can be found by reading the information sheet, which is available here: <https://docs.google.com/document/d/1TMQbKt5-r36n6bBrN8kKsFKxOzB0Nhuh/edit>

If you are willing to share your views, please use the following QR code or link to access the questionnaire:
