

OUR IMPACT / 2025 - AUGUST 2026

We provide essential furniture, household items and clothing to people experiencing poverty and hardship across Warrington and Halton.

As the only organisation in the area offering this kind of practical support, our work is a lifeline for many of the people we help. Without it, they could simply go without.

Many are starting again with almost nothing, moving into empty accommodation without the basic items that make it a home. Others are facing a crisis that has left them without the everyday essentials most of us take for granted.

BEHIND THE NUMBERS

Behind every figure is a person or family going through a difficult time. Our referral partners see first-hand what the right support can mean to the people they work with, and sometimes their words say it better than any statistic can.

“ The assistance you have given has made a genuine difference to their lives, particularly at a time when they have needed support the most. ”

“ I just want to say a big thank you for all the items you were able to give to one of the families I am currently working with. The mother rang me when they had been delivered and said how amazing it was. She was very grateful for everything that was given to her and her children. ”

“ The referral process was so simple and efficient. I have to say a big thank you and again express how you all do such an amazing job ”
